

CURRICULUM PROGRESS GUIDE

The Curriculum Progress Guide contains a full listing of all lesson plans from each content area covered in the Curriculum. Although you will be able to run reports containing information specific to each student, this document will be useful when you are initially learning as it will assist you in becoming familiar with the many Styer-Fitzgerald programs offered on UnitusTI. Use it to keep track of the specific lessons your student is working on until you become proficient at running reports.

The guide will also be useful for initial meetings with parents or guardians as it gives a clear picture of the programs their child is learning.
