

# Styer-Fitzgerald Purchasing Options

## The Styer-Fitzgerald Program for Functional Academics is offered in Print and in the Cloud

Because Styer-Fitzgerald offers the entire Assessment, comprehensive Curriculum, and extensive Teaching Materials in 2 different formats (print and cloud), we are not only able to accommodate all teachers – those who have embraced the digital age and those who prefer pen and paper, but we are also able to reach all students – those who are able to access technology and those who are not. Both Programs offer the same results with different methods for getting there.

## Purchasing Options and Pricing

### Print

Each classroom/teacher needs his or her own **Teaching Package** and each student needs his or her own **Student Package**, which follows the student grade to grade, teacher to teacher. **Teaching Packages** include 5 Student Packages and a ready-made Teaching Materials Kit and are a one-time purchase as all materials are reproducible. The only time districts repurchase **Student Packages** is when students move from Elementary to Secondary or when new students enter the district.
